

Looking at **The Poetics**

(An Internet Assignment)

Overview: Since so much of the history and technique of writing revolves around **The Poetics**, an intensive examination of the text seems in order. Study the wonders of web-enhanced education by reading and studying the text online.

Objective: By the successful completion of this Project, the student will be able to articulately discuss - orally and in written fashion - the principles Aristotle outlines in his book.

Start Date: August 30, 2010

Suggested Procedure: First, read the text from the Internet site, utilizing the website listed. Please note that there are twenty-six (26) sections for you to read and study. Second, consider the discussion questions within the study guide web site. Consider the essay's study question site as a guide toward pulling the most significant concepts from the reading.
