Terms and Conditions: Online Courses

Login: Student **login**** names are composed of the first letter of the student's first name, plus their entire last name, plus the last two digits of their anticipated year of graduation (e.g. John Doe from the Class of 2015 would have the following username: jdoe15). The initial **password**** (which can, and should, be changed by the student) is the student's phone number including area code with no spaces or dashes (e.g. a student whose phone number is 800-555-1212 would have as their initial password: 8005551212)

Duration of Course: Online courses must be completed within 120 calendar days. A student would normally spend 67.5 hours of seat time, plus homework in a traditional school setting. Please keep in mind that sufficient time must be spent on the online course in order to have a successful outcome.

Drop Fee: Up to 10 days after enrollment, the student can drop the course with a refund of the purchase price minus \$50 enrollment fee. After this 10 day period, the student will no longer receive a refund for the course, unless the content or platform of the course makes completion impossible.

Pop-Up Blocking: To view all content, and to use the "Talk to a Teacher" feature, please add advancedacademics.com to your pop-up blockers' allow list. Most browsers, some search engine toolbars and even some antivirus software contain popup blocking features. You should allow this site in all of the security applications.

Maintenance Schedule: Wednesday from 11 PM until 2 AM on Thursday, Central Time. The online course system will not be available to students or administrators during this period. Please plan accordingly.

Technical Support: For technical support, please call 1-866-235-3276 at any time 24/7.

Testing: It is strongly suggested that a student not use a laptop via wireless internet to take tests and exams. A break in wireless access for even a second can result in the test being locked out. Once a student has begun a test or quiz, he or she must finish the test and submit it for a grade before navigating elsewhere within the system. This is a safeguard against cheating. This safeguard, also, prohibits the use of the browser's navigation buttons (such as Back, Forward, Refresh, etc.). The student should only use the navigation links and/or buttons from within the course page. Failure to comply with this regulation can result in the locking of the assessment. While this assessment can be reset by a teacher and/or administrator, this type of behavior is considered suspicious and such a request may be denied.

I have read and agree to the Terms and Conditions in this document (signature):
